

Assignment Module -3 (Session 2)

Ques1. Create a Bugzilla account using your college or personal email, then log in and take a screenshot of your Bugzilla dashboard after successful login.

Ans.

Ques-2. Pick any mobile app you use daily (such as Instagram, Zomato, or Paytm) and identify a real or imagined bug you have experienced — log this bug in Bugzilla with a clear summary, detailed steps to reproduce, expected vs actual result, and attach a screenshot or mock image showing the issue.

Ans:

Product: TestProduct **Reporter:** sakshamdave82@gmail.com

*** Component:** TestComponent **Component Description:** This is a test component in the test product database. This ought to be blown away and replaced with real stuff in a finished installation of Bugzilla.

Version: unspecified **Severity:** major

Hardware: Other **OS:** Other

We've made a guess at your operating system and platform. Please check them and make any corrections if necessary.

*** Summary:** Instagram Login button remains enabled when username and password fields are empty

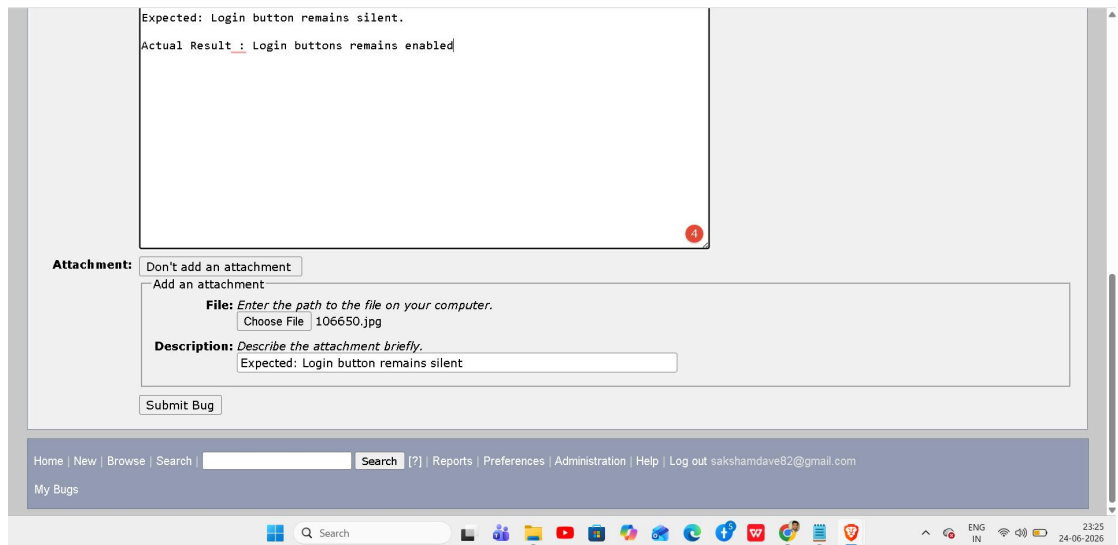

Description:

Steps to Reproduce

1. Open Instagram app.
2. Navigate to Login screen.
3. Leave username blank
4. Leave Password Blank
5. Observe Login Button.

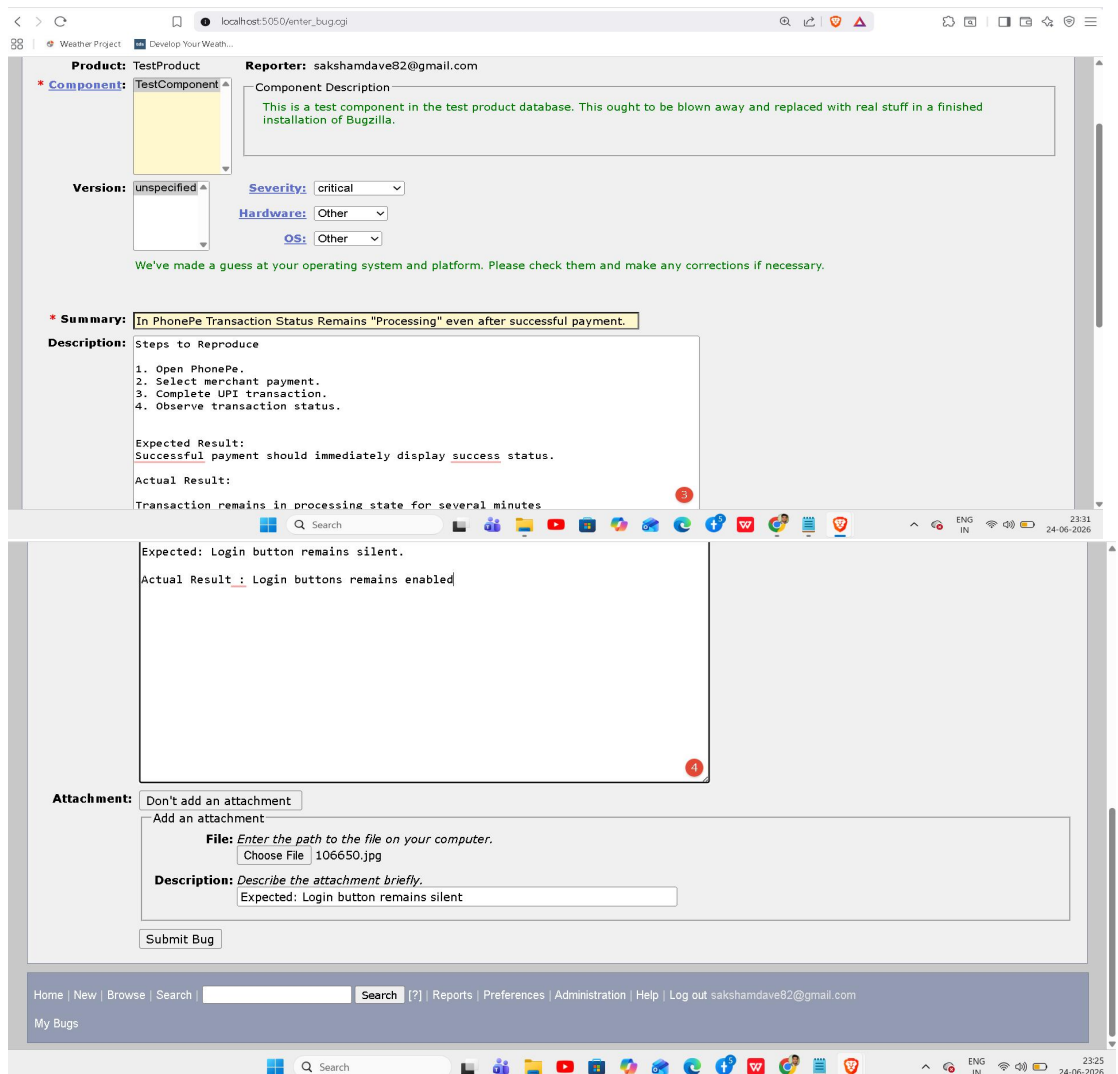

Expected: Login button remains silent.

Actual Result : Login buttons remains enabled

Ques 3. Log two more defects in Bugzilla for different apps (for example, a payment failure in PhonePe or a wrong item added in Flipkart cart), making sure to select appropriate Severity and Priority for each defect and fill out the Module and Build/Version fields.

Ans:

My Bugs

Ques 4. Update the status of one of your logged defects in Bugzilla from 'New' to 'Assigned', then to 'Fixed', 'Retest', and finally 'Closed', adding a brief comment at each stage describing what happened.

Hint: Use the 'Add Comment' box in Bugzilla to note what action was taken at each step.

Ans: New → Assigned

Comment: Issue reviewed and assigned to development team for investigation.

Assigned → Fixed

Comment: Root cause identified and code changes implemented. Issue marked as fixed.

Fixed → Retest

Comment: Fix deployed to testing environment and ready for QA verification.

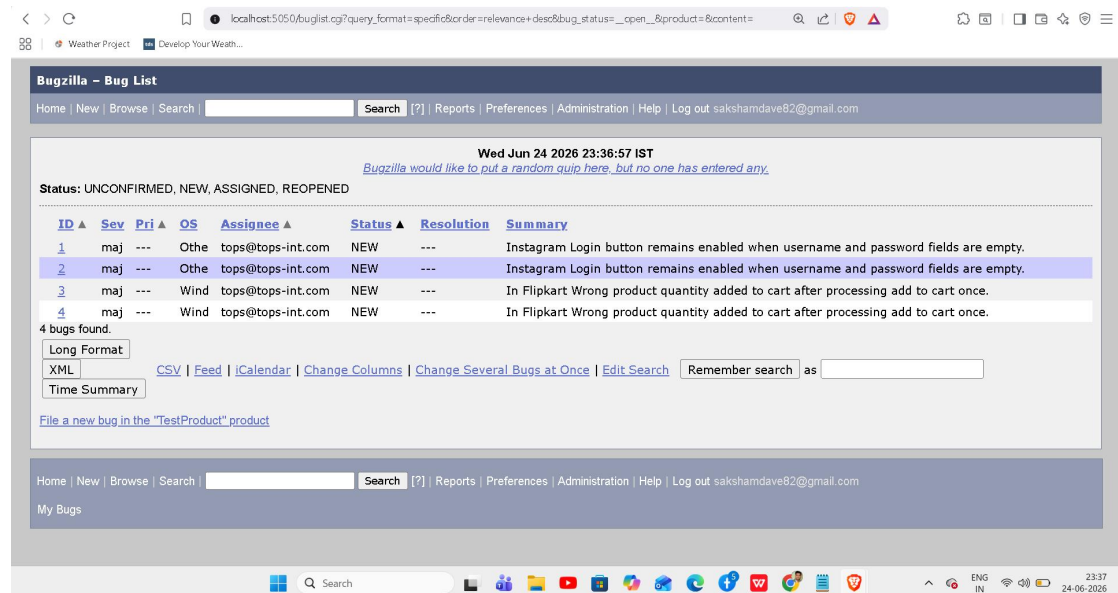

Retest → Closed

Comment: Issue verified successfully. Expected result achieved. Defect closed.

Ques 5. Use Bugzilla's search and filter features to find all defects you have logged that are currently not 'Closed', and take a screenshot showing the filtered results.

Hint: Try filtering by your user ID and by defect status.

Ans:

The screenshot shows the Bugzilla web interface. The browser address bar displays a URL with search parameters: `localhost:5050/buglist.cgi?query_format=spef&order=relevance+desc&bug_status=__open__&product=8&content=`. The page title is "Bugzilla - Bug List". The navigation bar includes links for Home, New, Browse, Search, and a search input field. The main content area shows the date "Wed Jun 24 2026 23:36:57 IST" and a status filter: "Status: UNCONFIRMED, NEW, ASSIGNED, REOPENED". A table lists 4 bugs found, with columns for ID, Sev, Pri, OS, Assignee, Status, Resolution, and Summary. The bugs are:

ID	Sev	Pri	OS	Assignee	Status	Resolution	Summary
1	maj	---	Othe	tops@tops-int.com	NEW	---	Instagram Login button remains enabled when username and password fields are empty.
2	maj	---	Othe	tops@tops-int.com	NEW	---	Instagram Login button remains enabled when username and password fields are empty.
3	maj	---	Wind	tops@tops-int.com	NEW	---	In Flipkart Wrong product quantity added to cart after processing add to cart once.
4	maj	---	Wind	tops@tops-int.com	NEW	---	In Flipkart Wrong product quantity added to cart after processing add to cart once.

Below the table, there are links for "Long Format", "XML", "Time Summary", "CSV", "Feed", "Calendar", "Change Columns", "Change Several Bugs at Once", "Edit Search", and a "Remember search" checkbox. The footer of the page shows the user "My Bugs" and the system time "23:37 24-06-2026".
